

The Tables below provide a summary of the total number of Moose and Elk harvested by the AOO. United in our commitment to protecting and maintaining viable populations of moose and elk, the numbers of animals harvested by the AOO in each WMU fell below the AOO's predetermined Sustainable Harvest Targets for each species.

Table 1: 2014–2015 AOO Moose Harvest							
WMU	Bull Harvest	Cow Harvest	Calf Harvest	Total Harvest per WMU	Sustainable Harvest Target	Population Estimate	Moose Aerial Inventory Year

In addition to the WMUs listed in Table 1, the AOO also harvest in the portions of WMUs 41, 50 and 54 located within their Traditional Territory. Each year, the AOO review the information from the moose aerial inventories with the MNRF and make adjustments if necessary.
