

HOW TO USE REFERENCE MAPS AND DESCRIPTIVE PLANS

Introduction

There are two categories of Provincial Crown lands that contribute to settlement of the Algonquin Land Claim under the proposed Agreement-in-Principle:

- Proposed Settlement Lands, which are lands to be transferred to Algonquin ownership.
- Crown Lands that will continue to be administered, controlled or owned by Ontario, and in which an Algonquin interest will be recognized.

Two types of maps are used to illustrate these two categories of lands:

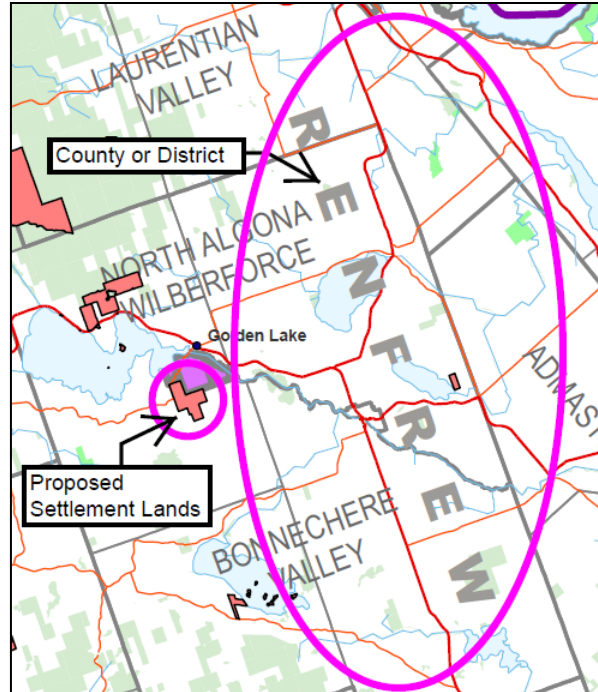

- Reference maps show all proposed Settlement Lands or Algonquin interests in Crown lands in a specific geographic area.
- Descriptive Plans provide detail for individual parcels of proposed Settlement Lands or Algonquin interests in Crown land. The Descriptive Plans describe the acreage and boundaries of, and known legal interests in, individual parcels of land.

Reference maps at the County or District level have parcel numbers that identify the Descriptive Plans of individual parcels.

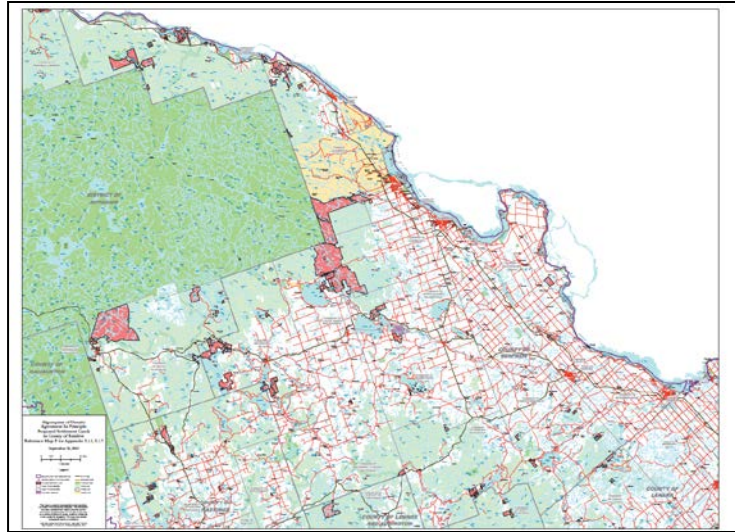

Using Reference Maps and Descriptive Plans for Proposed Settlement Lands:

1. To see all Proposed Settlement lands in the land claim area, double click on the file titled "Reference Map A Proposed Settlement Lands 20130930.pdf".

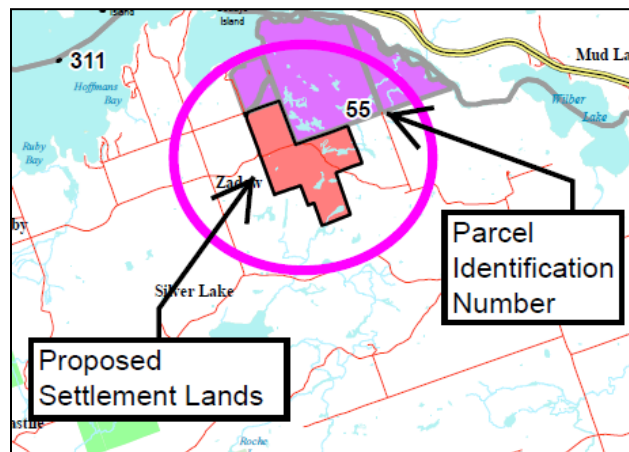

You can zoom in on this map to identify a County or District where settlement lands are located (see example below).

2. To see the proposed Settlement Lands in a County or District, double click on the relevant Reference Map
e.g. "Reference Map F Proposed Settlement Lands in County of Renfrew 20130930.pdf" (see example below).

3. To find parcel numbers corresponding to Descriptive Plans for individual parcels, zoom in on the County or District Reference map and note the Parcel Identification Number (see example below for Parcel Identification Number 55).

4. To view a Descriptive Plan of an individual parcel, double click to open a Descriptive Plan Appendix Folder. Most proposed Settlement Lands are in Appendix 5.1.1.

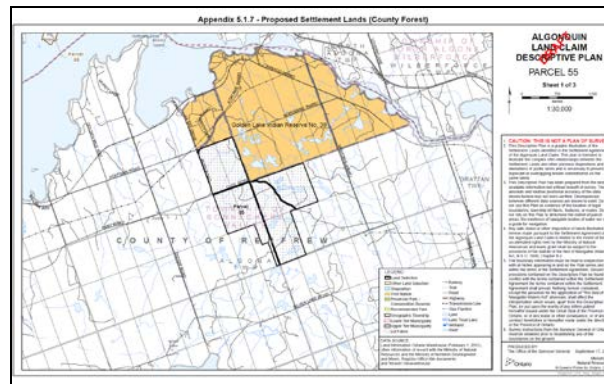

Three parcels of proposed settlement lands, noted below, are in Appendix 5.1.7 or 5.1.8

- Appendix 5.1.7 – Descriptive Plans of County Forests, Parcels 55 and 55C
- Appendix 5.1.8 – Descriptive Plan of Camp Island, Parcel 83F3

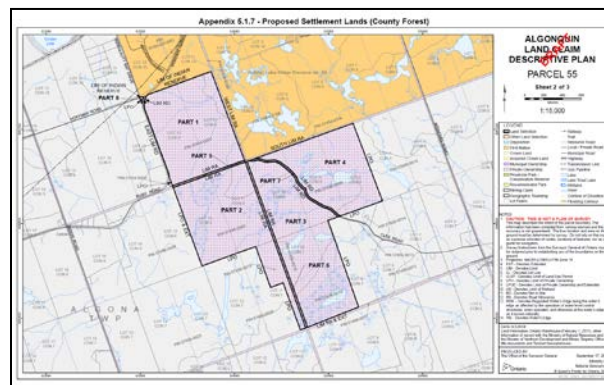

5. Double click to open the Descriptive Plan for an individual parcel of Proposed Settlement Land, e.g. “Parcel 55_Appendix 5.1.7_20130930.pdf”.

Descriptive Plans are several pages long.

- The first sheet of a Descriptive Plan shows the whole parcel, and the municipality, County or District in which it is located.

- The next sheet(s) illustrates “parts”, which are features such as roads, easements, road allowances and water bodies within the parcel. Each part is numbered. For larger parcels, this may require several sheets.

- A Part Schedule describes what each part is, whether it is included or excluded from the parcel, as well as the total area of the parcel.

Appendix 5.1.7 - Proposed Settlement Lands (County Forest)

PART SCHEDULE						
Part #	Description	Area (ha)	Area Included (ha)	Area Not Included (ha)	Action	Comments

How to use the Reference Maps and Descriptive Plans for Algonquin Interests in Provincial Crown Lands

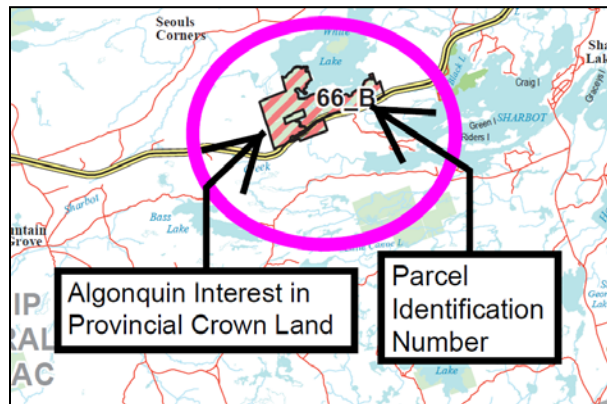

Steps:

1. Review the legend below to identify the different types of Algonquin interests in Provincial Crown land that are illustrated on Reference Maps.

	Crown Lands for Recommended Provincial Park/Park Addition
	Crown Land Easement
	Crown Lands for Area of Algonquin Interest – Crown Land Management Agreement
	Crown Lands with Right of First Refusal
	Crown Lands with Restrictions on Protected Area Boundary Change

2. To see the Algonquin interests in Provincial Crown land within a specific County or District, and to find Parcel Identification Numbers for the Descriptive Plans for individual parcels, double click on a County or District Reference Map and zoom in on the parcel

eg. “Reference Map I Algonquin Interests in Provincial Crown Lands in County of Frontenac 20130930.pdf” (see example below).

*Note: There are no parcel numbers or Descriptive Plans for Provincial Parks or Conservation Reserves the Algonquins will have interests in, unless they are park additions recommended as part of the settlement. The boundaries of protected areas are defined by regulation under the *Provincial Parks and Conservation Reserves Act*.*

3. To view a Descriptive Plan of an individual parcel, use the table below to identify the appropriate Appendix or Section folder.

Parcel Identification Numbers	Appendix or Section
66B	Appendix 5.3.2A
109A	Appendix 5.3.2C
22F	Appendix 5.3.3
56M

18B	Appendix 9.1.30
98	
18e	Section 5.3.1
22Ee	
178Ce	
224e	
294Ce	

4. Double click to open a Descriptive Plan Appendix or Section Folder.
5. Double click to open the Descriptive Plan for an individual parcel of Provincial Crown Land in which the Algonquins will have an interest, eg. "Parcel 66B_Appendix 5.3.2A_20130930.pdf".
6. Descriptive Plans are several pages long.
- The first sheet of a Descriptive Plan shows the whole parcel, and the municipality, County or District in which it is located (see example on page 4 above).
 - The next sheet(s) illustrates "Parts", which are features such as roads, easements, road allowances and water bodies within the parcel. Each Part is numbered. For larger parcels, this may require several sheets (see example on page 4 above).
 - A Part Schedule describes what each part is, whether it is included or excluded from the parcel, as well as the total area calculation of the parcel (see example on page 5 above).
 - A Stakeholder Activities table identifies known legal interests in the parcel that may not be captured in the Part Schedule (see example on page 5 above)
