## **Register as a Potential Supplier for CNL Procurement Activities**

Canadian Nuclear Laboratories (CNL) is the operator and licensee of Chalk River Laboratories (CRL), located in Chalk River, Ontario, and within the Algonquins of Ontario unceded Traditional Territory, adjacent to the Algonquins' most revered waterway, Kitchissippi (Ottawa River).

In the ongoing relationship building between the AOO and CNL, there is an opportunity for Algonquin Businesses to register as a Potential Supplier for CNL procurement opportunities. Through the registration processes, interested businesses can make their company and capabilities known to CNL. Completed registration forms will then be automatically directed to CNL's Supplier Relationship and Development team where they will be used to develop bidder's lists as well as used to explore capabilities through invitations to visit or participate in trade-type show.

If you or any other Algonquin contractors, suppliers and members in your network are interested in becoming a potential supplier for CNL procurement activities, please complete the following steps:

1. Press [here](#) to begin the supplier registration process.
2. Indicate whether your businesses in interested in providing goods, equipment or service to CNL by pressing the following links:
  - [Construction Services](#)
  - [Specialized Services](#)
  - [Professional Services – General](#)
  - [Professional Services - Engineering](#)
  - [Goods and Equipment](#)
3. Complete Registration Forms for each area of interest. If you wish to register in multiple areas, you must complete an additional form for each area.
