

2021-2022 AOO Harvest Summary

The tables below provide a summary of the total number of Moose and Elk harvested by the Algonquins of Ontario (AOO) during the 2021-2022 harvest season. United in our commitment to protecting and maintaining viable populations of Moose and Elk, the AOO will continue to monitor and manage their community harvest efforts. Each year, the AOO review data from MNRF moose aerial inventories and make adjustments to their harvest targets, if necessary.
