

Algonquins of Ontario Forest Resource Program

**Do you want to help ensure a healthy future for our forests?
Do you need help to be able to play your part?**

The Algonquins of Ontario (AOO) has funding available to help our communities, members and businesses develop capacity and create economic development opportunities in the forestry sector.

The funds can be used for training, equipment, hands-on work in the forest, or work related to biological, cultural, aesthetic, recreational, social or scientific values that contribute to healthy forests.

Eligible activities could include:

- sustainable silviculture activities to enhance stand conditions (stand improvement, tree planting)
- educating AOO members on sustainable forestry / silviculture (college diploma or university degree in related program areas)
- forestry skills training (tree marking, compliance, and scaling certifications)
- purchase of forestry equipment (brush saws, chainsaws, personal safety equipment, GPS units).

Application forms now available!
Forms, templates & instructions available at <https://tanakiwin.com/forestryfunds>

Be sure to speak to your local ANR about your project idea.
