Please see below for the Notice of Commencement and the meeting notice, as well as contact information for the project team should you have any questions or feedback.

NOTICE OF COMMENCEMENT

Class Environmental Assessments for the Tewin Infrastructure and Transportation Plans

The 2022 Ottawa Official Plan introduces 445.35 hectares of land into the urban boundary to facilitate the creation of Tewin, a new, sustainable and complete community that will be comprehensively planned and developed. The community planning and design process for Tewin is proposed to be advanced through an integrated Environmental Assessment process (Approach #3), informed by a robust consultation process.

The proposed development will deliver a livable, mixed-use, and transit-supportive community and the required supporting infrastructure (roads, water, sanitary sewers and stormwater facilities). The Transportation and Infrastructure Plans will be undertaken in accordance with the Municipal Class Environmental Assessment process using Approach #3, Integration with the Planning Act.

Members of the public, agencies, communities and other interested persons are encouraged to actively participate in the planning process by attending consultation opportunities or contacting the project team directly with information, comments or questions. Consultation opportunities are planned throughout the planning process and will continue to be advertised online and by direct mail and/or email.

You can learn more about the project and share your thoughts and feedback through various community meetings, website updates, e-newsletters, social media updates, or by contacting the project team directly through the website at www.tewin.ca. In addition, there will be an opportunity to review the final Environmental Assessment report when it is complete.

PUBLIC INFORMATION SESSION – WE WANT TO HEAR FROM YOU!

VIRTUAL WEBINAR
OCTOBER 26, 2023
7:00 - 9:00PM

Public consultation is a critical component of the Tewin planning and design process. The City and the Tewin project team will be participating in a virtual public information session on **Thursday, October 26th at 7:00 p.m.** This meeting is an opportunity to learn about the Tewin project and the study process, hear a presentation on the technical background studies and preliminary opportunities, and take part in a question and answer session with the project team. Future public meetings will share the preliminary alternative community plans and the final preferred plan to the community for feedback.

Please use the link below to register for the virtual Zoom webinar. You can also register for this meeting by visiting the project website at www.tewin.ca.
