

2023-2024 AOO Harvest Summary

The tables below provide a summary of the total number of moose and elk reported as harvested by the Algonquins of Ontario (AOO) during the 2023-2024 harvest season. United in their commitment to protecting and maintaining healthy, viable populations of moose and elk, the AOO will continue to monitor and manage their community harvest efforts. Each year, the AOO review moose and elk population status data from MNRF and make adjustments to their harvest targets, if necessary.
